

# KALP JIGAR DODIYA

Ahmedabad, Gujarat | 7777931178 | kalpdodiya99@gmail.com  
LinkedIn | GitHub | Portfolio

## PROFESSIONAL SUMMARY

Computer Engineering student at LJ University with hands-on experience in **Python, HTML, CSS, JavaScript, Django, React, Java, and SQL**. Developed full-stack web applications and a Java-based medical store management system. Strong foundation in web development, database management, REST APIs, and problem solving, with strong teamwork, communication, and analytical skills.

## TECHNICAL SKILLS

|                               |                                                                                                                             |
|-------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>Programming Languages:</b> | Python, Java, JavaScript, SQL                                                                                               |
| <b>Python Frameworks:</b>     | Django, Django REST Framework                                                                                               |
| <b>Frontend:</b>              | HTML, CSS, Bootstrap, React, Vite, Tailwind CSS                                                                             |
| <b>Backend &amp; APIs:</b>    | REST APIs, Node.js, Express.js, JDBC                                                                                        |
| <b>Databases:</b>             | MySQL, PostgreSQL, MongoDB, SQLite                                                                                          |
| <b>Core Concepts:</b>         | Object-Oriented Programming, Data Structures, Database Management Systems, Authentication, Web Development, API Integration |

## PROJECTS

### Clothing Store Management System

[GitHub](#)

*Python, Flask, Flask-SQLAlchemy, Flask-Login, HTML, CSS, JavaScript, Bootstrap, MySQL, SQLite*

Full-stack online clothing store featuring user authentication, product browsing, wishlist, cart, checkout, order tracking, and admin management.

### ServiceHub – Local Services Marketplace

[GitHub](#)

*Python, Django, Django REST Framework, React, JavaScript, HTML, CSS, PostgreSQL, Django Channels, WebSockets*

Local services marketplace enabling users to discover, book, and communicate with service providers such as plumbers and electricians.

### Medical Store Management System

[GitHub](#)

*Java, MySQL, JDBC, Object-Oriented Programming*

Java-based pharmacy management system for medicine inventory, customer and staff management, cart, billing, sales tracking, and expired medicine handling.

## EDUCATION

### Bachelor of Technology (B.Tech.) – Computer Engineering

2024 – 2028

LJ University, Ahmedabad

Currently Pursuing

CGPA: 8.84

Class XII: 73.84%

2024

Class X: 85.33%

## CERTIFICATIONS

Exploratory Data Analysis for Machine Learning – IBM

June 2026

Introduction to HTML, CSS, & JavaScript – IBM

December 2025

Inheritance and Data Structures in Java – Penn Engineering

July 2025

Introduction to Java – LearnQuest

January 2025

## SOFT SKILLS

Problem Solving | Analytical Thinking | Communication | Teamwork | Leadership | Quick Learner  
Adaptability | Time Management | Project Management

## LANGUAGES

English | Hindi | Gujarati
